Subject: RE: Meeting w/ Clean Energy Systems

Hi Martha and team,

Thanks again for taking the time to talk to us today, to discuss our plans to deploy carbon removal projects to address the agricultural, forestry, and other wastes, but without the pollution associated with conventional biomass power plants. We appreciate the support provided by EPA to date, and will follow up to better understand the pragmatic steps we can take with Delano and other planned projects, with respect to submitting the application for a Class VI permit. We believe these projects are crucial to addressing critical issues facing the state and country, to address climate change, air quality, and water scarcity.

Thanks again – it's greatly appreciated.

Best Regards,

Keith

Keith Pronske
